G(t) Scalar Field Visualizer

Unified Scalar Time-Gradient Field Theory — interactive exploration

Field Definition

$$G(t) = A_{\text{base}} + A_{\text{amp}} \cdot \cos(2 \cdot t)$$

Base Amplitude (A_{base})

1.000e-3

Oscillation Amplitude (A_{amp})

1.000e-4

G(t) over t [0, 1]

Min G(t)

-

Max G(t)

-

Mean G(t)

-

Peak-to-Peak

-

Fractional Deviations

Decay $/g_{\text{sub0}}$; (c=1.0)

-

Gravity g/g_{sub0} ; (c=0.5)

-

Inertia a/a_{sub0} ; (c=0.5)

-
